Autotherm Solutions

Latest, Strong, Sturdy, PLC/PC Controlled Heating Quenching Technology by Dhanaprakash. Mn Steel Hardening, SS Solution treatment, Forging, Quenching, Tempering & Normalising

Our Uniqueness

- Automated Heating/Quenching/Cooling Systems for Heat Treating now fulfills the metallurgical needs perfectly.
- PID Controlled, Auto tuned, Ramp Soak Profile which controls the systems meeting the requirement of API- 6A, NORSK, AMS, ASTM Standards.
- Multi Fuel, Multi Burner, Multi Zone-Electrical Heating Modes.
- Uniform Temperature in Heating, Quenching, Furnace Cooling.
- Automated Instant Job Transfer System XYZ Manipulators.
- Manless Operation
- SCADA - Customizable Mimic Representation, Alarm Generation, Data Logging.
