

Electronics(e-Waste) and Hazardous Chemicals Waste Incinerator

E-WASTE & HAZARDOUS CHEMICAL WASTE CALCINER SYSTEM

- Electronic waste is eliminated in rotary calciners,
- Precious metals collected,
- Pollutants Treated in venturi scrubber and vented off in 30M high Chimney.
- **Capacity** - 50 - 200 kg/hr shredded waste of PCB, and other electronic parts,
- **Primary Combustion** - $850 \pm 5^\circ\text{C}$.
- **Secondary Chamber** - 1050°C 1 sec. res. time.
- **Fuel** - Gas, Diesel, Electricity.
- **Turbo technology** - Waste offers heat for burning itself partially.
- **Pollution Control equipments** Venturi scrubber, Quencher demister, ID Fan in Stainless Steel.
- **Emissions** - As per National Ambient Air Quality Norms.
